

Nkululeko Njabulo Ndlwana

32 Lutumbu street, Kwa Thema, Springs, Johannesburg

067 806 2924 | Laxinkulul3ko@gmail.com

Objective

Motivated and hardworking student currently studying towards a Diploma in Computer Science. Seeking a Work Integrated Learning (WIL) opportunity to apply theoretical knowledge in a professional environment, develop practical skills in software development and information technology, and contribute positively to an organization. Quick to learn, reliable, and eager to gain industrial exposure while expanding my technical skills, problem solving abilities and teamwork.

Education

- **Tshwane University of Technology** 2021-2026
Diploma in Computer Science
NQF 6
- **Springs Boys High School** 2017-2021

Skills

- Programming (Java, Html, CSS, Javascript)
- Tools: Git, vs code, NetBeans apache
- Frameworks: node.js, spring boot, next.js

Projects

- **Bus Tracking Application**
Collaborated with a team to design and develop a bus tracking application for students to be able to track their bus location for day planning and safety reasons
- **A couple of school assessments**
Used the MVC(Model, View, Controller) model to create web applications, with glassfish server for both web and application containers and for application security with roles , and derby database for storage
